Would you like your COID claims paid quicker without the hassle and fuss? To find out how, Rand Mutual Assurance’s (RMA) cordially invites you to the following information sessions.

RMA, a company with more than 120 years experience in the administration of COID claims in the mining industry, has been granted an additional licence to administer all Class XIII (iron, metal and steel industries) COID claims, effective 1 March 2015.

At the information session we will highlight important need-to-know information regarding RMA’s processes and invoice submissions, and introduce you to our user-friendly medical portal.

These sessions are intended for all Medical Service Providers and facilities.

Have you missed any of our previous communications? If so, you may view them on our website at www.randmutual.co.za
